**Charlie Chan Carries On** Earl Derr Biggers 2015-07-03 This early work by Earl Derr Biggers was originally published in 1930 and we are now republishing it with a brand new introductory biography. "Charlie Chan Carries On" is the fifth novel in the Charlie Chan series. Inspector Duff, a Scotland Yard detective and friend of Chan's, first introduced in Behind That Curtain, is pursuing a murderer on an around-the-world voyage; so far, there have been murders in London, France, Italy and Japan. While his ship is docked in Honolulu, the detective is shot and wounded by his quarry; though he survives, he is unable to continue with the cruise, and Chan takes his place instead. Earl Derr Biggers was born on 26th August 1884 in Warren, Ohio, USA. Biggers received his further education at Harvard University, where he developed a reputation as a literary rebel, preferring the popular modern authors, such as Rudyard Kipling and Richard Harding Davis to the established figures of classical literature. Following in their footsteps upon graduating, he himself began a career as a popular writer, penning humorous articles and reviews for the Boston Traveler. While on holiday in Hawaii, Biggers heard tales of a real-life Chinese detective operating in Honolulu, named Chang Apana. This inspired him to create his most enduring legacy in the character of super-sleuth Charlie Chan. The first Chan story "The House Without a Key" (1925) was published as a serialised story in the Saturday Evening Post and then released as a novel in the same year. Biggers went on to write five more Chan novels and all were licensed for movie adaptations by Fox Films. These films were hugely popular with several different actors taking the lead role of Chan. Eventually; over 40 films were produced featuring the character. Biggers only saw the early on-screen successes of Charlie Chan due to his death at the age of only 48 from a heart attack in April 1933.

Sojourners and Settlers, Chinese Migrants in Hawaii Clarence Elmer Glick 1980 "Among the many groups of Chinese who migrated from their ancestral homeland in the nineteenth century, none found a more favorable situation than those who came to Hawaii. Coming from South China, largely as laborers for sugar plantations and Chinese rice plantations but also as independent merchants and craftsmen, they arrived at a time when the tiny Polynesian kingdom was being drawn into an international economic, political, and cultural world. Between the extremes of enthusiastic welcome and bitter prejudice, the migrants made their way into the mainstream of Hawaiian life. Caucasians dominated the sugar industry, banking, and the larger businesses, and increasingly controlled the government, but they were too few to preempt the openings in crafts, trades, and smaller businesses resulting from the expansion of the Island economy: Although more than half of the migrants returned to China after a few years' sojourn, those who remained moved successfully into these openings. As the first major Asian migrant group in the area (followed by Japanese, Koreans, and Filipinos) they had little competition. By the time the monarchy was overthrown in 1893 and Hawaii was annexed to the United States in 1898, Chinese settlers were well established and were helping their Hawaii-born children move on to greater achievements, political and social as well as economic. Sojourners and Settlers traces the waves of Chinese immigration, the plantation experience, and movement into urban occupations. Important for the migrants were their close ties with indigenous Hawaiians, hundreds establishing families with Hawaiian wives. Other migrants brought Chinese wives to the Islands. Though many early Chinese families lived in the section of Honolulu called "Chinatown," this was never an exclusively Chinese place of residence, and under Hawaii's relatively open pattern of ethnic relations Chinese families rapidly became dispersed throughout Honolulu. Chinatown was, however, a

nucleus for Chinese business, cultural, and organizational activities. More than two hundred organizations were formed by the migrants to provide mutual aid, to respond to discrimination under the monarchy and later under American laws, and to establish their status among other Chinese and in Hawaii's multiethnic community. Professor Glick skillfully describes the organizational network in all its subtlety. He also examines the social apparatus of migrant existence: families, celebrations, newspapers, schools-in short, the way of life. Using a sociological framework, the author provides a fascinating account of the migrant settlers' transformation from villagers bound by ancestral clan and tradition into participants in a mobile, largely Westernized social order" -- Book jacket.

*The Song of the Lark* Willa Cather 1915 A novelist and short-story writer, Willa Cather is today widely regarded as one of the foremost American authors of the twentieth century. Particularly renowned for the memorable women she created for such works as *My Antonia* and *O Pioneers!*, she pens the portrait of another formidable character in *The Song of the Lark*. This, her third novel, traces the struggle of the woman as artist in an era when a woman's role was far more rigidly defined than it is today. The prototype for the main character as a child and adolescent was Cather herself, while a leading Wagnerian soprano at the Metropolitan Opera (Olive Fremstad) became the model for Thea Kronborg, the singer who defies the limitations placed on women of her time and social station to become an international opera star. A coming-of-age-novel, important for the issues of gender and class that it explores, *The Song of the Lark* is one of Cather's most popular and lyrical works. Book jacket.

**Ten North Frederick** John O'Hara 2014-06-24 The National Book Award-winning novel by the writer whom Fran Lebowitz called “the real F. Scott Fitzgerald” Joe Chapin led a storybook life. A successful small-town lawyer with a beautiful wife, two over-achieving children, and aspirations to be president, he seemed to have it all. But as his daughter looks back on his life, a different man emerges: one in conflict with his ambitious and shrewish wife, terrified that the misdeeds of his children will dash his political dreams, and in love with a model half his age. With black wit and penetrating insight, *Ten North Frederick* stands with Richard Yates’ *Revolutionary Road*, Evan S. Connell’s *Mr. Bridge and Mrs. Bridge*, the stories of John Cheever, and *Mad Men* as a brilliant portrait of the personal and political hypocrisy of mid-century America. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. **Chinese Chicago** Huping Ling 2012-01-18 Numerous studies have documented the transnational experiences and local activities of Chinese immigrants in California and New York in the late nineteenth

and early twentieth centuries. Less is known about the vibrant Chinese American community that developed at the same time in Chicago. In this sweeping account, Huping Ling offers the first comprehensive history of Chinese in Chicago, beginning with the arrival of the pioneering Moy brothers in the 1870s and continuing to the present. Ling focuses on how race, transnational migration, and community have defined Chinese in Chicago. Drawing upon archival documents in English and Chinese, she charts how Chinese made a place for themselves among the multiethnic neighborhoods of Chicago, cultivating friendships with local authorities and consciously avoiding racial conflicts. Ling takes readers through the decades, exploring evolving family structures and relationships, the development of community organizations, and the operation of transnational businesses. She pays particular attention to the influential role of Chinese in Chicago's academic and intellectual communities and to the complex and conflicting relationships among today's more dispersed Chinese Americans in Chicago.

Threat Finance Shima D. Keene 2016-02-24 Criminal and terrorist organisations are increasingly turning to white collar crime such as fraud, e-crime, bribery, data and identity theft, in addition to more violent activities involving kidnap and ransom, narcotics and arms trafficking, to fund their activities and, in some cases pursue their cause. The choice of victims is global and indiscriminate. The modus operandi is continually mutating and increasing in sophistication; taking advantage of weaknesses in the system whether they be technological, legal or political. Countering these sources of threat finance is a shared challenge for governments, the military, NGOs, financial institutions and other businesses that may be targeted. Shima Keene's Threat Finance offers new thinking to equip any organisation regardless of sector and geographical location, with the knowledge and tools to deploy effective counter measures to tackle the threat. To that end, she brings together a wide variety of perspectives - cultural, legal, economic and technological - to explain the sources, mechanisms and key intervention methodologies. The current environment continues to favour the criminal and the terrorist. Threat Finance is an essential read for fraud and security practitioners, financial regulators, policy-makers, intelligence officials, judges and barristers, law enforcement officers, and researchers in this field. Dr Keene offers an antidote to the lack of good, applied, research; shortcomings in in-house financial and forensic expertise; misdirected financial compliance schemes; legal and judicial idiosyncrasies; unhelpful organisation structures and poor communication. She argues convincingly for a coherent, aggressive, informed and cross-disciplinary approach to an ever changing and rapidly growing threat.

Colour-Coded Constance Backhouse 1999-11-20 Historically Canadians have considered themselves to be more or less free of racial prejudice. Although this conception has been challenged in recent years, it has not been completely dispelled. In *Colour-Coded*, Constance Backhouse illustrates the tenacious hold that white supremacy had on our legal system in the first half of this century, and underscores the damaging legacy of inequality that continues today. Backhouse presents detailed narratives of six court cases, each giving evidence of blatant racism created and enforced through law. The cases focus on Aboriginal, Inuit, Chinese-Canadian, and African-Canadian individuals, taking us from the criminal prosecution of traditional Aboriginal dance to the trial of members of the 'Ku Klux Klan of Kanada.' From thousands of possibilities, Backhouse has selected studies that constitute central moments in the legal history of race in Canada. Her selection also considers a wide range of legal forums, including administrative rulings by municipal councils, criminal trials before police magistrates, and criminal and civil cases heard by the highest courts in the provinces and by the Supreme Court of Canada. The extensive and detailed documentation presented here leaves no doubt that the Canadian legal system played a dominant role in creating and preserving racial discrimination. A central message of this book is that racism is deeply embedded in Canadian history

despite Canada's reputation as a raceless society. Winner of the Joseph Brant Award, presented by the Ontario Historical Society

Mrs. Spring Fragrance Sui Sin Far 2021-02-23 Mrs. Spring Fragrance (1912) is a collection of short stories by Sui Sin Far. Inspired by her experience living among Chinese Americans in San Francisco and Seattle, Mrs. Spring Fragrance is considered one of the earliest works of fiction published in the United States by a woman of Chinese heritage. In “The Inferior Woman,” Mrs. Spring Fragrance encounters her neighbors, the Carmans, as they try to find someone to marry their son. While Mrs. Carman wants him to marry into a family of higher social standing, her son is in love with a local girl who works as a legal secretary. Known by Mrs. Carman as the “Inferior Woman,” she has risen through hard work and perseverance to achieve her position at the law firm. Sympathetic toward her neighbor’s son, Mrs. Spring Fragrance advocates on his behalf. “In the Land of the Free” is the story of a Chinese immigrant who is separated from her young son upon arrival due to insufficient paperwork. Exploring the struggles of this woman to reclaim her son, Sui Sin Far exposes the discrimination and hardships faced by Chinese Americans due to the Chinese Exclusion Act, illuminating the byzantine and restrictive immigration policies which sadly continue under a different guise in modern America. With a beautifully designed cover and professionally typeset manuscript, this edition of Sui Sin Far’s Mrs. Spring Fragrance is a classic of Chinese American literature reimagined for modern readers.

**Kingsblood Royal** Sinclair Lewis 2023-11-23 Neil Kingsblood is a white middle-class man who discovers, while researching his family background, that he is directly descended from an African adventurer on the American frontier. Through various machinations, Kingsblood loses his banking job and takes a lesser one. He begins to be treated differently by former acquaintances, despite the lack of visible black African ancestry. He is forced to choose between continuing what he has come to see as a hollow existence in the white community and taking on the oppressed minority status of the black community. After Kingsblood tells several white friends about his newfound ancestry, the news quickly spreads, and he finds that acquaintances change their behavior toward him. He engages in a quixotic struggle against the racism newly apparent but widespread in his community.

**What Went Wrong With Money Laundering Law?** Peter Alldridge 2016-05-17 This book surveys the development of laws surrounding the crime of money laundering and the associated changes in the anti-money laundering (AML) industry. The policy of attempting to deal with crime by attacking its financial products started in the arena of drugs, but quickly moved to organised crime, terrorism, corruption and tax. Now the focus has shifted once again to organised crime and to immigration. In the wake of the failure of the 'war on drugs' a huge amount of money is now being spent on a global surveillance and reporting system, and we do not know whether the system works or not. What Went Wrong With Money Laundering Law? documents the events which, taken independently, could each be seen as rational responses to specific problems and as incremental adjustments to the focus of the law. Taken together, however, it is demonstrated that they have led to significant changes in the law and to the current situation. Underlying the entire AML industry is the crime of money laundering, which, having been devised more to provide a trigger for the reporting machinery than to describe and condemn a particular category of harmful behaviour, is now being used in a far wider range of cases than is appropriate. This book will be of great interest to scholars and practitioners of criminal and financial law, socio-legal studies and criminology.

**History of the Persian Empire** A. T. Olmstead 1959-02-15 Out of a lifetime of study of the ancient Near East, Professor Olmstead has gathered previously unknown material into the story of the life, times, and thought of the Persians, told for the first time from the Persian rather than the traditional Greek point of view. "The fullest and most reliable presentation of the history of the Persian Empire in existence."—M. Rostovtzeff  
**Money Laundering Law** Peter Alldridge 2003-01-14 In the past twenty years action in respect of the profits of crime has moved rapidly up the criminal justice agenda. Not only may confiscation orders be made, but there are also now serious substantive criminal offences of laundering the proceeds of crime. Moreover, the consequences of the regulatory régimes put in place by the Money Laundering Regulations 1993 and the Financial Services Authority are very significant. This book examines critically the history, theory and practice of all these developments, culminating in the Proceeds of Crime Act 2002, which marks another step in the move towards greater concentration both on the financial aspects of crime and on the internationalisation of criminal law. The Act puts in place the Assets Recovery Agency, which will be central to the strategy of targeting criminal monies and will have power to bring forfeiture proceedings without a prior criminal conviction and to raise assessments to taxation. The author subjects the law of laundering, especially the novel aspects of the Proceeds of Crime Act itself, to thorough analysis and a human rights' audit. Contents: Introduction; The Economics of Money Laundering; Theory: Justifications for Forfeiture, Confiscation, and Criminalisation; History of Forfeiture and Confiscation Provisions; The International Dimension; Forfeiture Provisions; Statutory Confiscation Provisions; Investigatory Powers; Beyond Confiscation - Criminalisation; Acquisition and Deployment of Money for Terrorism; Confiscation without Conviction - 'Civil Recovery'; Money Laundering and the Professions
